

81
7. A light protecting sheet comprising:

an aluminum-deposited polyethylene terephthalate film;

a transparent polyethylene terephthalate film coated onto one side of the aluminum-deposited polyethylene terephthalate film via a two-component adhesive;

a white ink layer coated on an opposite side of the aluminum-deposited polyethylene terephthalate film; and

a hot melt layer covering the white ink layer.

8. The sheet of Claim 7 wherein said two-component adhesive is mixed with a white pigment to fix said transparent polyethylene terephthalate film onto the aluminum-deposited polyethylene terephthalate film.

IN THE DRAWINGS

In Fig. 1, please add the legend "PRIOR ART" thereto, as indicated in red ink on the attached drawing sheet.

REMARKS

Upon entry of the present amendments, previous Claims 1 - 5 have been canceled and new Claims 6 - 8 substituted therefor. Reconsideration of the rejections, in light of the foregoing amendments and present remarks, is respectfully requested. The present amendments have been entered for the purpose of placing the application into proper condition for allowance.

In the Official Action, it is indicated that Claims 1 - 5 were rejected under 35 U.S.C. § 112, first paragraph, because specification is not enabling for the broad interpretation of an "aluminum-
